# Analyze Stocks Like It's 2025

Hi {{firstName}},
Ever imagined building a full stock research report — valuation, benchmarking, guidance, even trade setup — in minutes, not days?

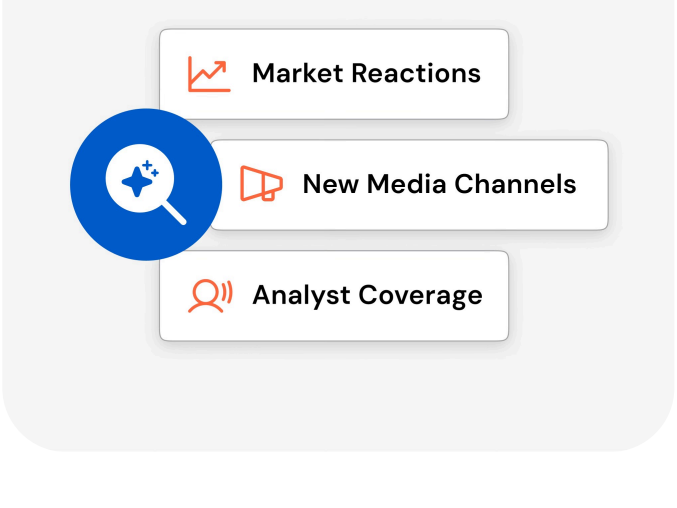

With mool, you get a 360° view combining both fundamentals and technicals to arrive at a target price with clear buy/sell recommendations.

## Here, you have the control!

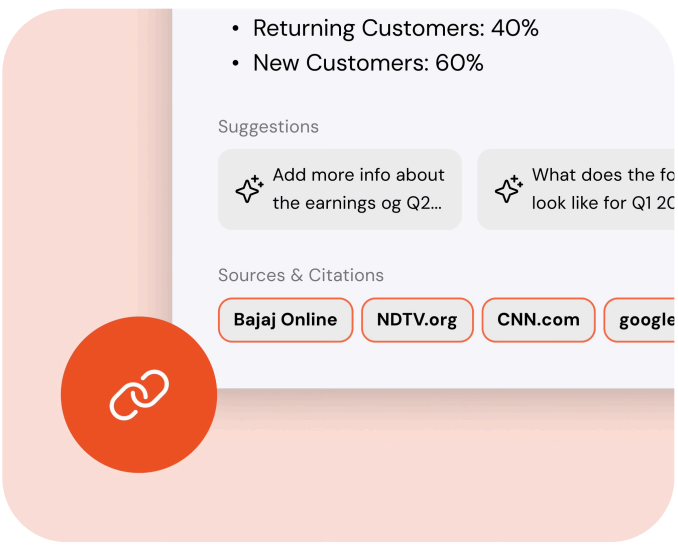

### Build from Your Dataroom

**Mool treats your internal files – reports, transcripts, models as a live research workspace.**

### Add market context

**Pull fundamentals, benchmarks, and signals from the web and sources like Tracxn.**

### Build your thesis

**Layer valuation models, price targets, and technical indicators - no spreadsheet required.**

🚀

# You Bring the Company.
# We Build the Landscape.

Hi {{firstName}},
Ever imagined mapping a market — key players, benchmarks, and strategic moves — **from a single company name?**

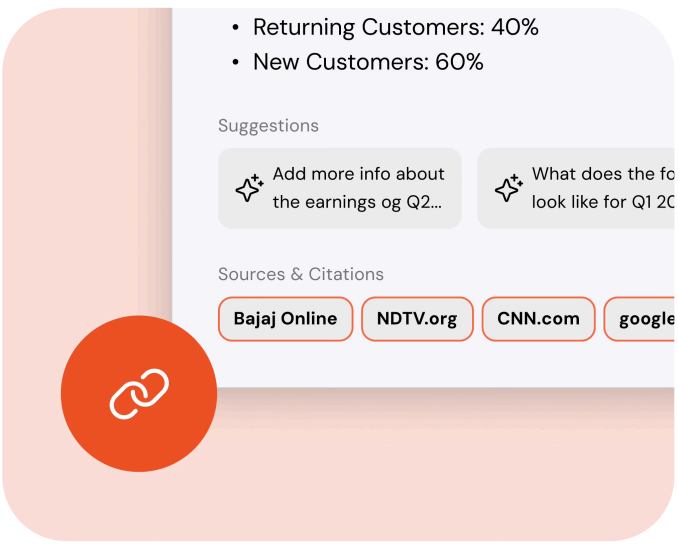

With mool, you can generate a comprehensive competitive landscape using filings, market data, investor decks, and web intelligence into one clear picture.

## Precision. Speed. Clarity.

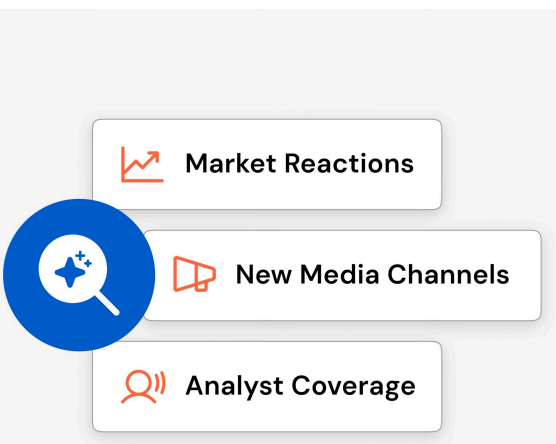

### In-depth Global Reach

**mool maps peers using investor filings, web intel, Tracxn, and your dataroom.**

### Compare strategic metrics

**Analyse business models, unit economics, and positioning pulled from real-world disclosures.**

### Trace competitive signals

**mool scans filings, investor updates, news, and private data feeds to surface shifts in strategy.**

# From filings to fundamentals — in minutes!

Hi {{firstName}},
Ever imagined running a complete underwriting review — ratios, risks, red flags — without building a single model?

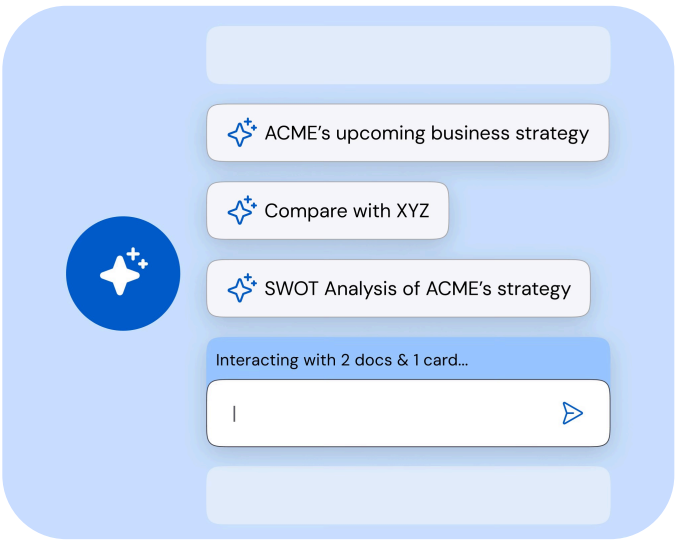

With mool, you get a clear breakdown of any company's financials with ratio analysis, balance sheet strength, and quality of earnings, aligned to your underwriting criteria.

## No Guesswork Here!

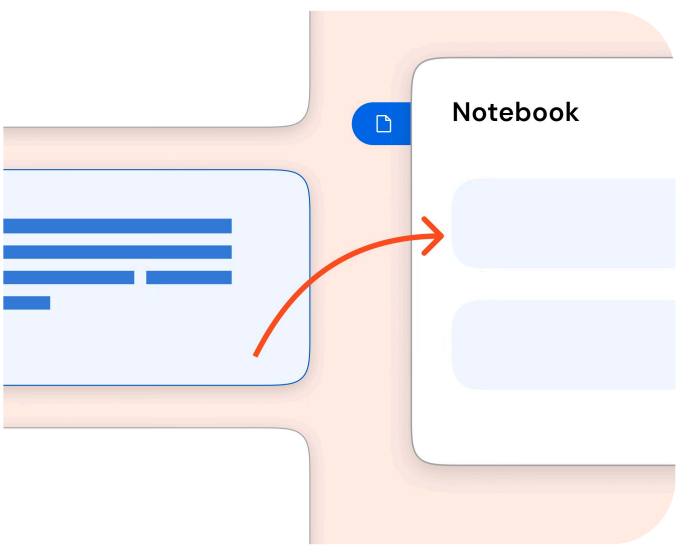

### Upload company data

**Add filings, statements, or internal notes in any file type — mool parses them with OCR and NLP**

### Break down financials

**Analyze profitability, leverage, and cash flow using auto-structured tables and trends**

### Flag underwriting risks

**Surface red flags and covenant triggers from disclosures, ratios, and footnotes in the notebook**

🚀
